To Whom It May Concern:

Recently, we had the opportunity to examine and review the Statewide Transportation Improvement Program (STIP) draft for 2006-2008.

We were both surprised to see state roads, in which our community councils and constituents have expressed an ongoing concern, excluded from the STIP draft. Both the Fairview Loop Road in the Greater Wasilla area and Clark-Wolverine Road in the Lazy Mountain area are in need of reconstruction and/or rehabilitation work. While small section projects have been performed on these roads they do not come close to addressing the overall increased traffic and safety issues.

We urge you to reconsider the omission of these roads for the 2006-2008 STIP List. These roads are very important to their communities and deserve a second look.

Sincerely,
